

What Every Freelancer Should Know about Managing Healthcare Costs

The workforce has changed a lot over recent years, and more and more US workers are switching to freelance work as their main source of income

Along with this work landscape comes the need to manage certain financial aspects of life, including healthcare. Here are some telling stats about the world of freelancing and what gig workers should know about managing healthcare costs.

THE GIG ECONOMY

\$1.28 trillion
Amount freelancers contributed to the US economy in 2018.

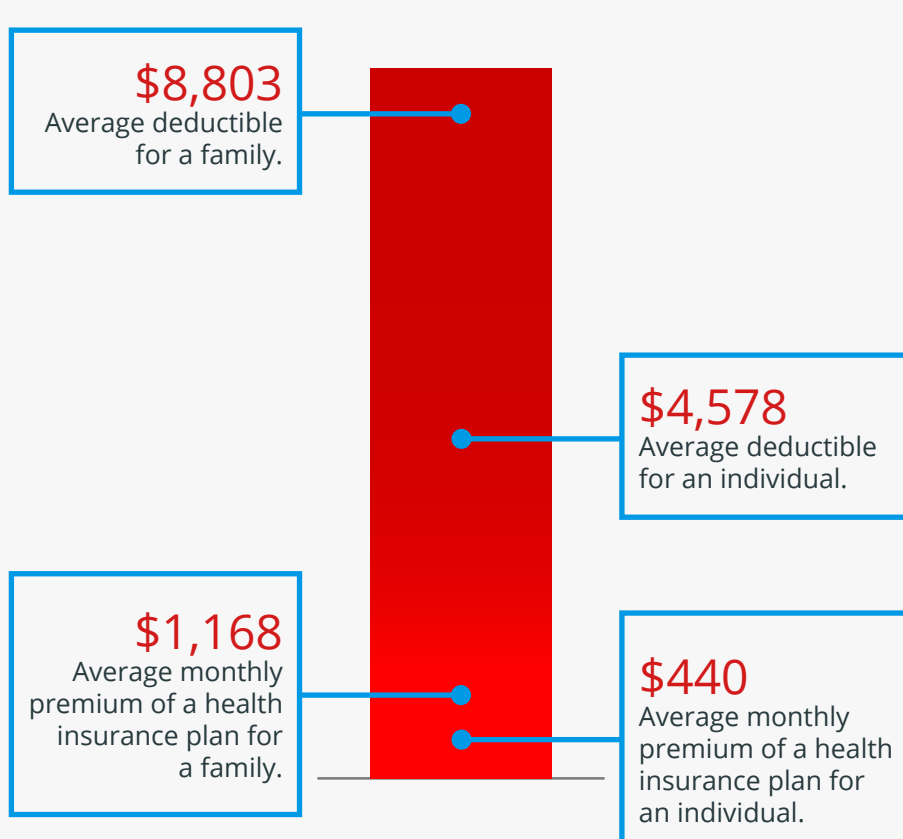

Over 50%
Share of the US labor force that will be part of the gig economy by 2027 at the current rate of growth.

1 billion
Number of hours independent workers in the US spend per week freelancing.

THE COST OF HEALTH INSURANCE

THE GROWTH OF HEALTH SHARE PLANS

If you are enjoying the freedom that comes with freelancing, why not also enjoy the freedom to choose how to manage your healthcare expenses without undue financial stress?
